Supporting Statement for Sharon

Sharon Callen, “Cue Learning” has been working with our staff for the past 8 years. This has been a wonderful partnership with great collaboration developed between all staff and Sharon throughout our Literacy journey. Sharon develops strong relationships with all staff, including SSOs and works with all staff to develop personalised learning plans. Sharon has successfully facilitated whole staff meetings, parent workshops, Learning Community teams, small group chats and individual meetings. Sharon embraces where staff are at with their learning and provides challenging conversation of where to next in their development. Sharon also works side by side with teachers, observes staff and gives detailed feedback, plus offers demonstration lessons which groups of teachers observe and then discuss the aspects of the major focus for that lesson. Working with Sharon has enabled us to develop a school literacy connections framework that every teacher is committed to thus giving us consistency of pedagogy across our site, helped de-privatise our practice and open up to professional discussions and feedback between staff. Our student’s reading, spelling and writing results have improved, with our 2018 year 5 reading results being recognised by ACARA as moving from below the Australian average to above. Sharon provides personalised, thought-provoking training sessions that are always appreciated by staff as she is able to adapt and talk to any literacy facet that teachers are working on. We really enjoy working with Sharon and love her friendly, knowledgeable and professional approach to supporting our school in its learning journey.

Kind Regards,

Derek Miller | Principal
